ONLINE BOOK LAUNCH EVENT

LEARNING, LEADING, AND THE BEST-LOVED SELF IN TEACHING AND TEACHER EDUCATION

This book explores the concept of the "best-loved self," elucidating it as a foundational component to the development of teacher identity, growth in context, and learning in community. In this book launch, the editors and chapter authors share how they have cultivated and lived their own best-loved selves through making sense of experiences, and sometimes through intelligent rebellion, in teaching and teacher education.

Join this book launch and learn how we can contribute to creating a milieu where our respective best-loved selves harmoniously thrive!
